Total	15,271						

The information found above includes projects that have been submitted that are either in the Pre-Application, Pre-Plat, Final Plat, and/or lots that have been final plated and recorded and are under construction. The data above is an estimate based on city staff evaluation of active and potential soon to be active projects. There are many other entitled projects that may become active that are not reflected on this map, but the data above is what is projected to continue to build-out over the next five years around the I-10 corridor: 11/26/2018
